

What's Happening Wednesday

Kansas Immunization Program

VFC Nurse on Call -Nurse on Call is April Broxterman at abroxterman@kdheks.gov
Nurse on call starting next week is Jayme Lewis at Jalewis@kdheks.gov The Nurse on call can be reached at 785-296-5592

February 10th, 2016

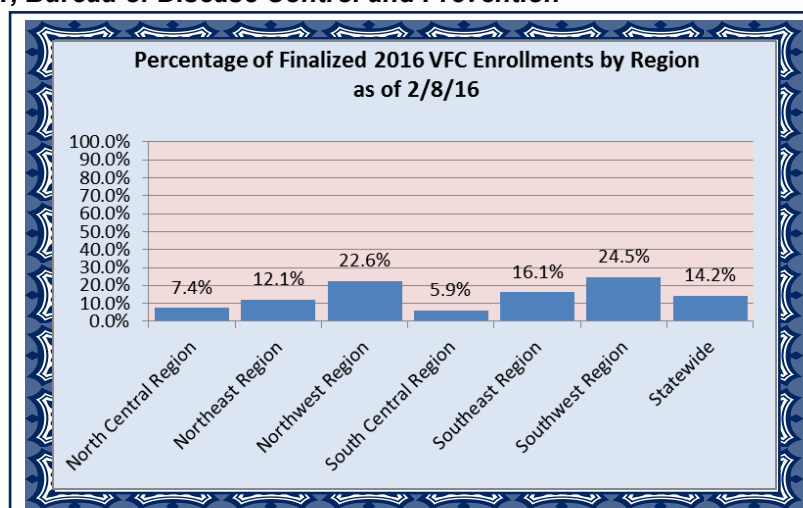

Chief Chat – We are excited to announce that Dr. Melinda Wharton has been confirmed as the key note speaker for the 2016 Kansas Immunization Conference. Dr. Wharton is the Director of the Immunization Services Division of the National Center for Immunization and Respiratory Diseases (NCIRD) at the Centers for Disease Control and Prevention (CDC). Dr. Wharton is internationally known as a champion of childhood immunizations and is an expert in vaccine safety. In addition to Dr. Wharton, Dr. Robin Curtis will also be joining us from the CDC. Dr. Curtis is a Medical Officer at the NCIRD, and has been the lead for the National PPHF HPV Immunization project. Dr. Curtis will be sharing with us lessons learned through these projects and best practices that have been developed. Please mark your calendars and begin making your plans to join us in Salina June 7 – 9, 2016 for a very informative conference. We are also seeking your assistance with the conference. At the end of this week or early next week, we will be sending a special bulletin from the KIP email announcing a call for proposals for the conference. This call for proposals is to ask you to consider being a presenter at the conference. We are looking for several breakout presentations of lessons learned and best practices developed. It is through collaboration and learning from our peers that often we find the best solutions to daily challenges. We will be looking for presentations that provide information that can be transferred to other providers to consider in their practices. Each proposal selected will be awarded with a complementary registration for the conference.

As we continue to deal with the delayed Pentacel shipping issues, we ask for your patience in the approval of the monthly orders for vaccine. We have put into practice a process that holds all orders with Pentacel included until the 7th of the month when all orders are due to be complete. At that time, we review the number of doses ordered, the current inventory on hand for each provider ordering, the average number of doses administered over the past six months, and the number of doses we have available to allocate. We then adjust the requested orders based on this information. This is the most fair and efficient means of assuring that we are evenly distributing the vaccine to meet the needs of providers. We appreciate your patience as we do our best to manage limited vaccine at this time.

As announced last week, we have a little friendly competition going on to see which region can complete the VFC provider annual enrollment the earliest. As a reminder, the region that completes the process the fastest will have all providers sites entered into a drawing to win complementary 2016 Kansas Immunization Conference registrations. This means ten clinics in the winning region will receive a prize! Currently, western Kansas is leading the way with the southwest region being slightly ahead of the northwest region. See where your region stands as of February 8th in the chart below.

Phil Griffin-Deputy Director, Bureau of Disease Control and Prevention

to win...

VFC Question of the Week-

Q: Where is the most current Recommended Immunization Schedule information located and are the booklets ready for order?

A: The ACIP Recommended Immunization Schedules for persons aged 0-18 years was published on February 2, 2016 as an Early Release on the MMWR website. The MMWR lists the changes that are shown in the 2016 schedules and footnotes. <http://www.cdc.gov/mmwr/volumes/65/wr/mm6504a4.htm>

The KIP website is syndicated with CDC to provide you with the most current immunization schedules:

<http://www.kdheks.gov/immunize/schedule.htm>

KIP provides copies of the 0-18 yr. old ACIP schedules in a booklet format and are available on the Online Health Education Order Center for orders: <http://www.orderscenter.com/cart.asp?MerchantID=IPEDKDHE>

The Adult Immunization Recommendations MMWR and schedules are located here: <http://www.cdc.gov/mmwr/volumes/65/wr/mm6504a5.htm> and schedules here: <http://www.cdc.gov/vaccines/schedules/downloads/adult/adult->

DID YOU KNOW?

VFC providers must routinely offer **all vaccines** on the ACIP Recommended Immunization Schedule for the population they serve. These vaccines are identified and agreed upon during the new enrollment and re-enrollment process.

Vaccine-Preventable Disease Outbreak– Declared Over

Varicella “Chickenpox” – DOUGLAS COUNTY: The outbreak was declared over on February 3, 2016. Seven cases were identified and linked to the outbreak.

For updated case counts of infectious diseases reportable to Infectious Disease Epidemiology and Response, please visit please visit the KDHE webpage at http://www.kdheks.gov/epi/case_reports_by_county.htm. Please note these numbers are preliminary and are subject to change based on case review. For any questions about reporting or for technical assistance please call the KDHE epidemiology hotline at 877-427-7317.

Chelsea Raybern, MPH, Advanced Epidemiologist Bureau of Epidemiology and Public Health Informatics

Influenza Surveillance— On the Increase

Influenza activity in Kansas is increasing as reported by Influenza-like Illness Network (ILINet) sites. Influenza-like illness is defined as a fever (> 100 degrees F) and the presence of a cough and/or sore throat. ILINet sites also submit up to two specimen for testing to the Kansas Health and Environmental Laboratories (KHEL). These specimens help monitor the types of influenza that are present in Kansas. During the week ending February 6th, ILINet sites reported 1.5% of visits were due to influenza-like illness.

KHEL has confirmed five positive influenza specimens for the 2015-2016 season. These specimens were submitted by a hospital in South Central Kansas. Influenza data is updated weekly at

www.kdheks.gov/flu/surveillance.htm.

Amie Worthington-KDHE Medical Investigator

Influenza Vaccine Available

Updates to the available doses will be posted weekly in the What's Happening Wednesday newsletter. If you have questions regarding FluMist delays, how flu orders are filled, and availability, please refer to the 2015-2016 Seasonal Flu communication or contact Jackie Strecker at 877-296-0464 or vaccine@kdheks.gov.

We currently have stock in the following presentations:

2015-2016 PEDIATRIC SEASONAL FLU CHART - UPDATED 2/10/16

Manufacturer	Brand	NDC	Age	Presentation	VFC Available	CHIP Available
GSK	Fluarix Quad (IIV4)	58160-0903-52	36mos+	10 1 dose syringes	0	0
Novartis	Fluvirin (IIV3)	66521-0118-02	4 years +	10 1 dose syringes	180	0
Sanofi	Fluzone Quad (IIV4)	49281-0415-10	36mos+	10 1 dose vials	0	0
Sanofi	Fluzone Quad (IIV4)	49281-0415-50	36mos+	10 1 dose syringes	0	0
Sanofi	Fluzone Quad (IIV4)	49281-0515-25	6-35mos	10 1 dose syringes	1330	0
Sanofi	Fluzone Quad (IIV4)	49281-0623-15	6mos+	10 dose vial	0	0
MedImmune	FluMist Quad (LAIV4)	66019-0302-10	2-49 years	10 1 dose sprayers	12700	0

Meningitis B Reminder Cards Ready to Order-

In order to help providers "accurately" protect their patients by using the same dose of Meningitis B, we have added a new reminder item on our KIP Ordercenter. The two MenB vaccines are not interchangeable; the same vaccine product **must** be used for all doses. Providers must remember that the series is only considered valid and complete if they use either 2 doses of Bexsero (GSK) or 3 doses of Trumenba (Pfizer). They are available in packages of 25 and 100 in order to better serve all our smaller and larger providers. If you are a VFC provider, log in using your VFC PIN number and order today by clicking here: <http://www.orderscenter.com/cart.asp?MerchantID=IPEDKDH>

 BEXSERO Meningococcal Group B Vaccine	 Trumenba Meningococcal Group B Vaccine
Dose #1 _____	Dose #1 _____
Dose #2 _____	Dose #2 _____
	Dose #3 _____

Stop and focus on patient card
Think and verify previous vaccine brand given
Act by giving vaccine and updating patient card
Reword card with patient

MenB Vaccine Card

Name: _____

DOB: ____/____/____

Keep this card with you at all times.
 Show to any healthcare provider when you receive vaccines.
 It is **IMPORTANT**
 to get the same MenB brand with each dose
 or the vaccine **WILL NOT** work.

Vaccine Order Split Cheat Sheet Update-

We have updated the Split Cheat Sheet to include higher dose vaccine splits. Please remember when placing your order that splits are applied per package not per dose and because of this you may not always get the perfect split you planned for. When placing your order, please refer to the Split Cheat Sheet to decide which split will work best for your clinic. If you have questions regarding the Split Cheat Sheet, please contact Jackie Strecker at jstrecker@kdheks.gov. If you have questions on which split will be best for your clinic, please contact your KIP Nurse Consultant.

The VFC split cheat sheet and other important VFC information can be found on this page by clicking here:

http://www.kdheks.gov/immunize/vfc_program.html

Click here to access the vaccine split sheet directly:

http://www.kdheks.gov/immunize/download/SPLIT_CHEAT_SHEET.pdf

You can also find a copy of the Vaccine Split Cheat Sheet on page 6 of this week's edition of What's Happening Wednesday.

2016-17 School Vaccine Cheat Sheet has been Posted-

The ever popular School Vaccine Cheat Sheet for the upcoming 2016/17 school year has been posted. We want to thank Debbie McNary at the Jefferson County Health Department for her continued great work on this document. We are currently in the process of translating the cheat sheet into Spanish and will have that document ready and posted soon.

To access our School Vaccine Information page that includes the cheat sheet and more please click here: <http://www.kdheks.gov/immunize/schoolinfo.htm>

Click here to access the School Cheat Sheet directly:

Operation Honeybee: 4th Quarter 3-Bee Reports

Data has been analyzed for Quarter 4 (Oct 1 – Dec 31, 2015). Congratulations to the following health departments that had the highest number of immunization visits and highest percentage of 3-Bee visits in their peer group for Quarter 4!:

Peer Group 1: Haskell County Health Department

Peer Group 2: Ford County Health Department

Peer Group 3: Sedgwick County Health Department

The Kansas Immunization Program will be in touch regarding your prizes! BEE on the lookout for statewide and peer group data for all four quarters from 2015 in next week's addition of What's Happening Wednesday. In addition, overall winners for the year of 2015 from each peer group will be announced then!

KSWEBIZ Trainings

Aggregate Inventory Training—Mondays at 1pm, First Fridays at 10:30am

The Aggregate Inventory Training occurs the first Friday of every month from 10:30 -11:30 a.m. This call will go over the basics of the On Hand, Reconciliation (MIR submission) and Vaccine Ordering windows in KSWebIZ for Aggregate Users. Bring questions and examples of issues that your clinic is having with the end of the month reporting. **Please note:** this call is for KSWebIZ Aggregate Users Only! After registering, you will receive a confirmation email containing information about joining the webinar. <https://attendee.gotowebinar.com/rt/6598705111102500354>

Register now for the date that works best for you!

Direct Entry Inventory Training— Tuesdays at 1pm, First Fridays at 12pm

The Direct Entry Inventory Training occurs the first Friday of every month from 12 -1 p.m. This call will go over the basics of the On Hand, Reconciliation (MIR submission) and Vaccine Ordering windows in KSWebIZ. Bring questions and examples of issues that your clinic is having with the end of the month reporting. **Please note:** this call is for KSWebIZ Direct Entry Users Only! After registering, you will receive a confirmation email containing information about joining the webinar. <https://attendee.gotowebinar.com/rt/4121654947304535298>

Register now for the date that works best for you!

New User Training— Thursdays at 2pm, Second Fridays at 12pm

The New User Training occurs the second Friday of every month from 12 -1 p.m. This basic training is for new KSWebIZ users, or people who would like a simplified refresher training on how to use KSWebIZ. We will be going over log-in, adding history, administering vaccinations, printing consents and pink cards. If you are a new user, have a new token, or recently had a token transferred to you please take the time to sit in on this training! **Please note:** this call is for KSWebIZ Direct Users Only! After registering, you will receive a confirmation email containing information about joining the webinar.

Register now for the date that works best for you! <https://attendee.gotowebinar.com/rt/1572841858584797442>

School Module Training

The School Module Training occurs the third Friday of every month from 9 - 10 a.m. This basic training is for new KSWebIZ school module users, or people who would like a simplified refresher training. **Please note:** this call is for KSWebIZ School Module Users Only! After registering, you will receive a confirmation email containing information about joining the webinar. <https://attendee.gotowebinar.com/rt/8422671756415350273>

Register now for the date that works best for you!

Reports Training

The Reports Training occurs the fourth Friday of every month from 12 - 1 p.m. This training is for KSWebIZ users who are wanting to learn more about the KSWebIZ Reports. We will be going over the various reporting sections and how to generate reports within these sections. We hope you have time to sit in on this training! **Please note:** this call is for KSWebIZ Direct Users Only! After registering, you will receive a confirmation email containing information about joining the webinar.

Register now for the date that works best for you! <https://attendee.gotowebinar.com/rt/568840407867357186>

NOTE: There have been additional trainings scheduled during the week for New User Training, Direct Inventory Training and Aggregate Inventory Training. The new times can be found above and when you register and select a specific training time. If these times do not work with your schedule or you have additional training needs please reach out to the IIS trainer msims@kdheks.gov or 785-296-0687

Vaccine Information Statements–

Anthrax	3/10/10	MMRV	5/21/10

Tdap	2/24/15	HPV9	4/15/15

Vaccine Redistribution

Please email any additions or changes to be made on the Vaccine Redistribution lists with subject matter "Redistribution" to vaccine@kdheks.gov or call toll free at 1-877-296-0464

http://www.kdheks.gov/immunize/vaccine_redistribution.htm

REMINDERS: Providers may place the excess doses on the KIP Redistribution list if:

- 1) The vaccine has a minimum of 90 days and a maximum of 365 days before the vaccine's expiration date;
- 2) The ordering provider is responsible for any doses which expire on the redistribution list that have not been accepted for transfer to another VFC provider;
- 3) Providers accepting vaccine from the redistribution list are responsible for using the doses once they are transferred. KIP encourages providers to accept only doses they can administer before the expiration date;
- 4) The transferring and receiving provider will document these doses on their monthly MIR/reconciliation reports as transferred vaccines.
- 5) Once vaccine is transferred please contact KIP to let us know so we can adjust the redistribution list by either deleting the line or by reducing the amount of doses.
- 6) All vaccines must be in full boxes
- 7) The KIP nurse consultant who is on call must be contacted prior to transferring vaccine
- 8) Providers are responsible for keeping KIP notified if there is a change in amount of doses available for redistribution.
- 9) When placing an order, you may be contacted if the vaccine you are trying to order is on the redistribution list.
- 10) Varicella and Proquad, will not be posted on the VFC or Private Vaccine Redistribution List. Frozen Varivax vaccines are very intolerant to out of range temperatures. To prevent potential vaccine waste the Kansas immunization Program requests that Varivax containing vaccines not be transferred to other providers. Questions regarding transporting vaccine call 877-296-0464 to request assistance.
